

# Applied Multilevel Models for Longitudinal & Clustered Data

**Who:** Dr. Lesa Hoffman (Psychologist, Nebraska)

**What:** A 3-day workshop on multilevel modeling

**When:** May 14-16, Tuesday to Thursday.

**Where:** May 14, 16 (B&E 216), May 15 (Erickson Hall 203)

Professor Hoffman offers several ICPSR classes on multilevel modeling. For this 3-day workshop, she will rely on a combination of lecture slides for more general concepts and specific data examples in Stata to illustrate those concepts. Annotated syntax provided for SPSS and SAS as well.

Free and open to faculty, staff and students at University of Kentucky.

Register soon at the QIPSR website: <http://qipsr.as.uky.edu/>

Sponsored by the Quantitative Initiative for Policy and Social Research (QIPSR), the College of Arts and Sciences, Agricultural Economics, the Department of Family Sciences and the Center for Drug Abuse Research Translation (CDART).
